### Clinical Laboratory Scientist

Full-time/Part-time - Hayward office

#### **Summary**

The clinical laboratory scientist performs laboratory testing with minimal supervision in the areas of hematology, urinalysis, serology, microbiology and chemistry. The CLS maintains records of performance as defined in the laboratory's general and sectional policy and procedure manuals.

#### **Minimum Qualifications**

A minimum of two year's CLS work experience in a clinical laboratory. A position of responsibility and experience in regulatory/compliance activities preferred. A bachelor's degree or equivalent in clinical laboratory science or related field is necessary. A valid CA Generalist Clinical Laboratory Scientist license is required.
